11. How to apply for a coverage

After an event that may be covered by any of the insurance coverage, it is an essential requirement that the Insured person, his / her relatives, companions or a person they trust immediately contact the Insurance provider, by calling the Assistance Center, telegram, fax or email to the numbers or addresses indicated in the Particular Conditions.

In the case of force majeure that prevents this notification, it must be done as soon as the circumstances that prevented the communication cease.

Once contact has been established, the Insured person, or failing that the caller, shall indicate the number of the Insurance contract, the place where the Insured person is located and a contact telephone number or email address, informing about the details of the events and describing the assistance requested. The Insurance provider shall provide a file number and shall immediately put into operation the mechanisms available to it in order to provide the required service.

The Insurer is not responsible for delays or breaches due to force majeure or related to special administrative or political characteristics of a particular country. In any case, if direct intervention of the Insurance provider is not possible, the Insured Person shall be reimbursed upon return to Spain, or if necessary, as soon as he/she is in a country where the previous circumstance does not exist, of the expenses incurred, whenever they are guaranteed by the presentation of the corresponding supporting documents.

The medical and health transport services must be carried out with the previous agreement of the physician who treats the Insured Person with the medical equipment of the Insurer.

For coverage of incidents in travel and flights, the Insured person must submit a written claim to the Carrier and shall assign to the Insurance provider his / her right to receive the compensation to be paid by the Carrier before receiving the corresponding compensation for the aforementioned coverage.

The Insured Person shall not be entitled to any compensation when he deliberately uses improper documents or fraudulent means, presents incomplete, inaccurate, exaggerated or fraudulent declarations regarding covered events or when causes are concealed and consequences magnified.

In accordance with the provisions of art. 16 of the Insurance Contract Law (Law 50/1980), the Insurance Contracting Party or the Insured person must also facilitate the Insurance provider all kinds of information regarding the circumstances and consequences of the event. For this, the Insurance Contracting Party or Insured person shall provide all the documents that are required by the Insurance provider.

12. Reimbursement of expenses

The Insurance provider shall reimburse the expenses incurred by the Insured person to be able to receive the assistance provided for in the contract only when he/she has been previously informed of it, and provided that the Insured person provides the original documentation that confirms having made the payment.

In no case shall the provision of service be replaced by compensation, unless expressly agreed.

13. Existence of other insurance

When there are other Insurances with other Insurance providers that guarantee the same coverage during the same period of time, the insurance contractor or the Insured person must notify the Insurance provider of the other existing Insurances. If this communication is not intentionally done and the covered event occurs, the insurance provider is not bound to pay the compensation.

Once the event under coverage has occurred, the Insurance Contracting Party or the Insured person must communicate it, in accordance with the provisions of the Article corresponding to the Insurance provider, indicating the name of the other Insurance providers, who shall contribute proportionally to the payment of the corresponding services.

Likewise, any compensation payable by the Insurance provider shall constitute a complement to the reimbursements that the Insured Person receives from the Social Security system or from any other protection institution, including mutual insurance companies, for the same medical expenses.

Under no circumstances shall the insurance be used for the unfair enrichment for the Insured Person, nor may he/she receive an amount that exceeds the real expenses.

14. Effect of insurance price non-payment

If the Contracting Party or the Insured person, as the case may be, fail to pay the first receipt of the Insurance by the closing date for payment, or it has not been paid in full if a single payment has been decided, the Insurance provider has the right to terminate the contract or to demand payment by legal means.

Unless otherwise agreed in the Particular Conditions, if the first payment has not been made before a covered event occurs, the Insurance provider shall be released from its obligation.

In case of non-payment of one of the following receipts, the coverage of the Insurance provider is suspended one month after the payment deadline. If the Insurance provider does not claim payment within six months from the payment deadline, the Insurance shall be permanently terminated.

In any case, when the contract is suspended, the Insurance provider may only demand payment for the current period.

If the Insurance has not been terminated or canceled in accordance with the preceding paragraphs, the coverage shall regain effect twenty-four hours after the day on which the Contracting Party or the Insured person, if applicable, make the payment.

15. The principle of good faith

The Law provides for various situations that, when they occur, go against the interests of the Insured Person, as they are sanctioned with nullity or ineffectiveness of the contract, or with consequences such as its challenge, exemption from the obligation of compensation and even the claim of liquidated damages by the Insurer.

In general, such situations occur when the Insurance Contracting Party, the Insured Person or the Beneficiary act with malicious intent, bad faith or gross negligence; when the Insurance Contracting Party makes incorrect statements; when data is hidden; when there is no cooperation in rescue tasks and, in summary, when the principle of good faith that is the basis of the Insurance contract is not respected.

Fraud, willful misrepresentation or concealment of information in relation to a covered event will be grounds for cancellation of this Insurance. In such case, the Insurance Contracting Party or the Insured Person will lose all rights to receive the compensation that may correspond to them and must return any compensation that the Insurance provider had already paid. In this case, the Insurance provider shall not reimburse the price of the Insurance.

The Insured person is bound to collaborate with the Insurance provider in the exercise of this claim.

19. Modification of risk

19.1. During the course of the Contract, the Insurance Contracting Party or the Insured Person shall communicate to the Insurance provider, as soon as possible, all the circumstances that aggravate the risk and are of such a nature that, had they been known by the Insurance provider at the time of the Contract, the latter would have not concluded it or would have concluded it under more burdensome conditions.

The Insurance provider may propose a modification of the conditions of the contract within a period of two months, from the day on which the aggravation has been declared. In such a case, the Contracting Party has fifteen days, from the receipt of this proposal, to accept or reject it. In case of rejection or silence on the part of the Insurance Contracting Party, the Insurance provider may, after this period, terminate said contract prior warning to the Contracting Party, granting it a new period of fifteen days to provide an answer, after which, and within eight days, the Insurance Contracting Party shall be notified of the definitive termination.

The Insurance provider may also terminate the contract by notifying the Insured Person in writing within one month, as of the day on which it became aware of the aggravation of the risk. Said termination shall be announced fifteen days before it takes effect.

If a claim occurs without a declaration of aggravation of the risk, the Insurance provider is released from its obligation to provide the service if the Insurance Contracting Party or the Insured Person have acted in bad faith.

In other cases, the service of the Insurance provider shall be reduced proportionally to the difference between the agreed price and that which would have been applied if the true risk had been known.

19.2. El Contratante del Seguro o el Asegurado podrán durante el curso del contrato poner en conocimiento del Asegurador, todas las circunstancias que disminuyan el riesgo y sean de tal naturaleza que si hubieran sido conocidas por éste en el momento de la firma del contrato lo habría concluido en condiciones más favorables.

En tal caso, al finalizar el periodo en curso cubierto por el precio del Seguro, el Asegurador deberá reducir el importe del precio futuro en la cuantía que corresponda, teniendo derecho el Contratante del Seguro, en caso contrario, a la resolución del contrato y a la devolución de la diferencia entre el importe satisfecho y el que le hubiera correspondido pagar, desde el momento de la puesta en conocimiento de la disminución del riesgo.

20. Conflict between parties
